Friday - 23 October 1964

STAT

5. (Unclassified - GLC) George Murphy, Joint Committee on Atomic Energy staff, called and asked several probing questions concerning Representative Harris E. McDowell's recent statement following a briefing given the Foreign Affairs Committee by the Secretary of State in some extremely sensitive areas. I referred Murphy to the Washington Post item of 22 October which he had not seen and also suggested that if he desired further information he contact the State Department.
